

The following items are recommendations for your upcoming OREGON COAST workshop. Please note that most items are not necessary for you to participate in the workshop, but encouraged if you already own them. If you do not own items on the list, there is no need to purchase. This workshop will be a place for you to learn from your instructors and other participants about their equipment preferences.

<p><b>EQUIPMENT</b> Camera Body Back-Up Camera Body Tripod legs &amp; head</p> <p><b>LENSES</b> Wide Angle (17-40mm range) General (24-105mm range) Telephoto (100-400mm range) Super Wide Telephoto (if you have one)</p> <p><b>FILTERS</b> Graduated Neutral Density Neutral Denisty (5-10 stop) Polarizer</p>	<p><b>MISC EQUIPMENT</b> Cable Release Cleaning Cloths Batteries &amp; Charger* Memory Cards* Rain/water cover for camera/lens</p> <p><b>TECHNOLOGY</b> Laptop Computer Power supply Card reader with cables Jump drive</p> <p>*Make sure to bring more batteries and memory cards than you think you need!</p>

Weather in coastal Oregon in August is warm and lovely - daytime temps averaging around 86 degrees with lows of 55 at night. Bringing layers to account for being out in various temperatures is recommended. While there is not a high chance of rain, it's always good to be prepared, and because we'll be photographing near the water/rocks, bringing a rain or waterproof cover for your camera and lens is wise. Please make sure to stay hydrated, drinking water throughout the day as well as the night.

**I like to carry a back-up camera in the field. It is not necessary, but if you have a back-up camera, please consider packing it. I have seen even new cameras fail in the field from time to time.**

*Computer note:* It is not necessary for you to carry a laptop to participate. If we do on-site processing, instructors will process images on their computers - you can submit images for these sessions if you'd prefer.
