CLOTHING RECOMMENDATIONS

Weather in Lee Vining can be quite cool in the mornings, but very pleasant during the day. Temperatures average between mid 30's and low 60's. Muck boots (or rain boots) are recommended as the water's edge can be mucky.

Weather in Alabama Hills is a little warmer with temperatures averaging between mid 50's to low 60's. Hiking boots or shoes are recommend for this portion of the workshop.

Please bring clothing that will allow for you to layer in the field.

PLEASE NOTE: Not all items mentioned above are necessary for your photo workshop. If you do not have an item listed, there is no need to purchase it to participate. This is a place where you will learn from instructors and other participants about equipment preferences. Please feel free to email or call with any photo equipment, processing equipment or clothing questions.
