

The following items are recommendations for your upcoming Yosemite photo workshop. Please note that most items are not necessary for you to participate in the workshop, but encouraged if you already own them. If you do not own items on the list, there is no need to purchase. This workshop will be a place for you to learn from your instructors and other participants about their equipment preferences.

### **EQUIPMENT**

Camera body

Tripod legs and head

\*We also recommend that you bring a back-up camera.

### **LENSES**

Wide angle (16-35mm or 17-40mm range)

Mid Range (24-105mm range)

Telephoto (70-200mm or 100-400mm)

Teleconverter

Macro

\*If you own a super-wide angle such as an 11-24mm, this is a great place to use it.

### **FILTERS**

Graduated Neutral Density

Neutral Density Filter

Polarizer

### **MISC EQUIPMENT**

Cable release

Cleaning cloths

Batteries and charger

Memory cards

### **TECHNOLOGY**

Laptop

Computer

Power supply

Card reader with cables

Jump drive

Weather in Yosemite in March should be nice, with high 50's during the day and evenings in the low 30's. There may be occasional rain, and we can expect cold mornings and nice afternoons. Please bring clothing that will allow you to layer for changes in temperature and weather in the field. Hiking boots or hiking shoes are strongly encouraged. Again, items listed below are not required for participation, but please bring clothing for potential cold or rainy weather.

Rain Jacket and Pants or Windbreaker

Hat

Gloves

Jacket

Flashlight/Headlamp (with red light option)
